#### Note to Mention:

- *Even if the Batch is a bit slower, we'll stick to the plan and go through these Topics/Chapters in sequence.*
- *If we cannot manage our time, the GMAT Official Guide might be excluded.*
- *After consulting with the Batch members, we may make changes to the course outline.*
- *If the Batch takes more than two months to finish and requests/decides to extend for another month, they may only do so if the majority of students agree.*
